ORDINANCE AMENDING BUDGET FOR NELSON COUNTY FOR FY 2014-15 (FIRST READING)

County Judge-Executive Dean Watts presented in open Court for first reading the following proposed ordinance amending the budget for Nelson County for Fiscal Year 2014-15. Said proposed ordinance was read in open Court in resume form and a full copy of the proposed ordinance is as follows:

Amendment #01

AN ORDINANCE relating to the annual budget and amendment thereof:

Whereas the County of Nelson has received additional revenue from service fees and real estate sales, be it ordained by the Fiscal Court of County of Nelson, Commonwealth of Kentucky:

Section One: The budget for fiscal year 2015 is amended to:

A. Increase/(decrease) revenues in the following funds to recognize revenue changes:

Account	Description	Amount
09-4901	EMS Carryover Fund Balance	\$ 150,000
97-4705	Real Property Sales	1,300,000

B. Increase/(decrease) expenditure account(s):

09-9200-999	EMS Reserve Account	\$ 150,000
97-8011-715	Land Costs - Industrial Park	39,100
97-7500-603-12	Salt River Note Payable - Principal	973,300

Fiscal Court Orders

Sept. 16, 2014
REGULAR SESSION OF NELSON FISCAL COURT

Book 37
Page 386

After a first reading, motion was made by Jeff Lear, second by Sam Hutchins, by unanimous vote of the Court, IT IS HEREBY ORDERED that legal notice advertising the second reading and possible adoption of the proposed ordinance be published in The Kentucky Standard in accordance with KRS 424.

PLANNING AND ZONING - REZONING ORDINANCES (FIRST READING)

County Judge-Executive Dean Watts presented in open Court for first reading the following proposed ordinances amending the zoning map for Nelson County, which changes were presented in accordance with the zoning regulations and have been reviewed and recommended for approval by the Joint City-County Planning and Zoning Commission as evidenced by written notice to that effect.

Said proposed ordinances were read in open Court in resume form and full copies of the proposed ordinances are as follows:

#2424 Michael A and Kimberly King

AN ORDINANCE AMENDING AND ADOPTING AS AMENDED ZONING MAP ENTITLED "ZONING MAP, CITIES OF BARDSTOWN, BLOOMFIELD, FAIRFIELD, NEW HAVEN AND NELSON COUNTY, KENTUCKY"

BY CHANGING THE DISTRICT CLASSIFICATION OF PROPERTY LOCATED IN NELSON COUNTY AS HEREINAFTER DESCRIBED FROM R-1A, SINGLE FAMILY RESIDENTIAL DISTRICT TO BE REZONED AS A-1, AGRICULTURAL DISTRICT.

WHEREAS, the Joint City-County Planning Commission of Nelson County, Kentucky, on August 12, 2014 held a public hearing under the provisions of KRS Chapter 100, and after careful consideration, the Commission on August 26, 2014, voted to approve and recommend the amendment to the Fiscal Court of Nelson County.

WHEREAS, the Court held a first reading on September 16, 2014 and after due advertisement held a second reading and adoption on October 7, 2014, and after due consideration,

UPON MOTION OF _____, SECONDED BY _____, AND A VOTE BEING HAD AND THE COUNTY JUDGE ANNOUNCING THAT THE MOTION CARRIED,

NOW THEREFORE BE IT ORDAINED BY THE FISCAL COURT OF NELSON COUNTY, COMMONWEALTH OF KENTUCKY:

SECTION 1: Boundaries of the district as shown on district map entitled "ZONING MAP, CITIES OF BARDSTOWN, BLOOMFIELD, FAIRFIELD, NEW HAVEN AND NELSON COUNTY, KENTUCKY" be and the same are hereby amended for reasons adopted and stated in the recommendation of the Joint City-County Planning Commission all of which is made a part hereof as if fully set out herein, including the letter of recommendation dated September 2, 2014, from the said Joint City-County Planning Commission of Nelson County to the Nelson County Fiscal Court, so that the following described property of Michael A. and Kimberly King, is presently R-1A, Single Family Residential District be and the same is placed as A-1, Agricultural District and said property is described as follows:

Fiscal Court Orders

Sept. 16, 2014
REGULAR SESSION OF NELSON FISCAL COURT

DEPARTMENT REPORTS

**State has approved \$215,000 for resurfacing of various Nelson County roads. On motion of Keith Metcalfe, second of Jerry Hahn, IT IS HEREBY ORDERED to approve the following resolution and to authorize the County Judge-Executive to sign the following contract:

RESOLUTION

Fiscal Court of Nelson County

Resolution adopting and approving the execution of a Memorandum of Agreement between the Nelson County Fiscal Court and the Commonwealth of Kentucky, Transportation Cabinet, Department of Highways for in the amount of \$215,000 for the Resurfacing Project, and

Be it resolved by the Fiscal Court that:

The Fiscal Court does hereby ratify and adopt all statements, representations, warranties, covenants, and agreements contained in said Agreement and does hereby accept the funds

Fiscal Court Orders

Sept. 16, 2014
REGULAR SESSION OF NELSON FISCAL COURT

Book 37
Page 391

provided in said Agreement and by such acceptance agrees to all the terms and conditions therein stated; and

The Judge/Executive of the County is hereby authorized and directed to sign said Agreement as set forth on behalf of the Fiscal Court of Nelson County, and the Fiscal Court Clerk of Nelson County is hereby authorized and directed to certify thereto.

COMMONWEALTH OF KENTUCKY, NELSON COUNTY

I, Elaine Filiatreau, Fiscal Court Clerk of Nelson County certify that the foregoing is a true copy of the Order above, given under my hand and seal of office this the 16th day of September, 2014.

PRINTED NAME Elaine Filiatreau

SIGNED NAME 
FISCAL COURT CLERK OF NELSON COUNTY

NELSON COUNTY
RESURFACING VARIOUS
COUNTY ROADS
\$110,000 – FD39 FUNDS
\$105,000 – CB06 FUNDS

WHEREAS, the **Department** agrees this is a worthwhile **Project** and is willing to reimburse the **County** up to \$110,000 in state contingency funding (FD39) and \$105,000 in state rural secondary program funding (CB06) for the completion of this **Project**; and

WHEREAS, any cost in excess of the reimbursement funding (\$215,000) for this **Project** will be the responsibility of the **County**.

NOW, THEREFORE, in consideration of these premises and the mutual covenants contained herein, the parties hereby agree as follows:

1. The **Department** agrees to reimburse the **County** up to \$215,000 for completion of work by the **County**, or consultants, contractors, or subcontractors hired by the **County**, under the obligations of this Agreement for the following **Project**:

To resurface the following various county roads:

- Tollgate Road (CR 1169) from KY 52 extending easterly for approximately 1.04 miles.
- Pottershop Road (CR 1106) from Bear Creek Bridge extending northerly to Mill Creek Bridge for approximately 0.98 mile.
- Airport Road (CR 1351) from 0.4 mile north of KY 2737 extending northerly to Barnes Road for approximately 0.54 mile.
- Hobbs Lane (CR 1307) from KY 509 extending easterly for approximately 0.81 mile.
- Stevens Lane (CR 1053) from KY 55 extending westerly to Big Spring Creek Bridge for approximately 1.06 miles.

Nelson County Speed Hump Guidelines

INTRODUCTION

The use of *Speed Bumps* and *Speed Humps* to control speeding, on neighborhood streets, is documented within many jurisdictions, across the country.

Kentucky Revised Statutes (KRS) Section 189.337 is the controlling statute that states "all traffic control devices shall be controlled by a manual of standards and specifications for a uniform system of official traffic control devices for use upon all roads and streets in the state, including incorporated cities." The Kentucky Transportation Cabinet issued 603 Kentucky Administrative Regulation 5:050 Uniform Traffic Control Devices, which establishes the manual referenced by KRS 189.337, and states that the standards and specifications set forth in the Federal Highway Administration publication *Manual on Uniform Traffic Control Devices for Streets and Highways (MUTCD)* shall apply to all traffic control devices installed on any publicly used highway, road or street in Kentucky.

In 1999, the Federal Highway Administration (FHWA) announced their plans to release a revised edition of the *MUTCD*. The FHWA announced that they were including a section on the proper signage and markings for jurisdictions choosing to install *Speed Humps*. The FHWA chose signage and marking standards based on research conducted and published by the Institute of Transportation Engineers, (ITE). The ITE published standards for construction, signage and markings of *Speed Humps* in their recommended practice entitled *Guidelines for the Design and Application of Speed Humps*, and this was adopted by the FHWA for inclusion in the *MUTCD*.

Based on the adoption of the ITE guidelines by FHWA, the revised *MUTCD* now refers to *Speed Humps*. The Nelson County Government (NCG) has interpreted this action to infer that the decision to use *Speed Humps* is a local decision and would not violate KRS 189.337.

The Nelson County Public Works and Road Departments (PW) has developed the following guidelines based on the ITE *Guidelines for the Design and Application of Speed Humps* and policies adopted by other jurisdictions.

A. GENERAL

A review of the available national literature has shown that speed humps can be an effective and appropriate measure for safely reducing vehicle speeds on certain types of streets, when installed according to the provisions of these guidelines. In order for speed hump installation to be

Fiscal Court Orders

Sept. 16, 2014
REGULAR SESSION OF NELSON FISCAL COURT

Book 37
Page 393

effective, they will be located selectively following defined transportation engineering criteria and traffic engineering studies for ameliorating documented speeding problems. Proper installation, based on the ITE guidelines, is also intended to minimize driver frustration and encourage safe driving practices.

These guidelines promote reasonable opportunities for residents and property owners most affected by a proposed speed hump have some input and participate together in the process that leads to its installation. It also provides for a potential sharing of the speed hump installation cost between a NCG and the neighborhood.

It should be noted that under Kentucky law, adjacent property owners do not have any greater interest in city streets than the traveling public (except for reasonable ingress and egress from their property). **Therefore, the decision to install or remove speed humps is solely within the discretion of PW.** However, when possible, PW will be sensitive to the wishes and preferences of households affected by the decision.

B. DEFINITIONS

These are some of the definitions used in the guidelines.

AFFECTED PROPERTY OWNERS – Includes only those properties adjacent to the right-of-way of the segment of the street where the speed humps are proposed or within a subdivision development which has an active Homeowners Association.

APPLICATIONS for SPEED HUMPS - Includes a petition by ballot of the affected property owners/and or Homeowners Association.

FUNCTIONAL CLASSIFICATION - "The process by which streets and highways are grouped into classes or systems according to the character of service they are intended to provide." (*Highway Functional Classification and Needs Study Manual*)

Arterial System - provides for through traffic movement between areas and across the city, with limited access to abutting property, but subject to access controls and curb uses.

Collector System - provides for traffic movement between arterials and local streets, with limited access to abutting properties.

Local System - provides direct access to abutting properties.

ITE - The Institute of Transportation Engineers.

LOW DENSITY RESIDENTIAL DWELLINGS - includes single-family houses, townhouses, duplexes, triplexes and quadraplexes.

MUTCD - *Manual on Uniform Traffic Control Devices.*

ROADWAYS - That portion of a highway improved, designed, or ordinarily used for vehicular travel, exclusive of the berm or shoulder. If a highway includes two (2) or more separate roadways, the term "roadway," as used herein, shall refer to any roadway separately, but not to all such roadways collectively.

SPEED HUMPS - Geometric design feature of a roadway, consisting of a raised area in the roadway pavement surface or a device affixed to the pavement surface, extending transversely across the travel way, whose primary purpose is to reduce the speed of vehicles traveling along the roadway.

SPEED - This refers to the operating speed, especially the range and frequency of speeds on the street. Operating speeds are collected in accordance with the ITE *Guidelines for the Design and Application of Speed Humps*. The study period shall be a minimum of 48 hours in length and to be conducted at the discretion of the PW.

SPEED CRITERIA - This pertains to speed that is 10 mph over the legal speed limit on the roadway.

STREET - Refers to the length of the street with proposed speed humps that must be petitioned. It is a minimum 1500 foot segment generally centered on the location of each hump, or length of the block, whichever is greater. If the 1500 foot segment extends into any part of an adjacent block of the same street, it includes the entire length of the adjacent block, unless separated by an intervening thoroughfare, traffic signal, stop sign, or offset intersection.

C. ELIGIBILITY REQUIREMENTS

The following criteria will be reviewed before a street is considered eligible for speed hump installation.

1. Support Although PW will utilize processes in order to determine if a segment of street is deemed appropriate for speed humps, generally the neighborhood representative(s) will be responsible for forwarding evidence of support for speed humps. Usually, PW will not consider speed humps unless approximately 70% of the affected property owners favor their installation.

Fiscal Court Orders

Sept. 16, 2014
REGULAR SESSION OF NELSON FISCAL COURT

Book 37
Page 394

2. Location of the Street The land uses of the properties abutting the street where the speed hump is proposed shall be composed of low density residential dwellings. This would include public roadways where 50% or more of the residents are single family residential dwellings.
3. Operational Characteristics of the Street.
 - a. The street shall be used to provide access to abutting low density residential properties. The street shall not be identified as a Collector or higher level street. Speed humps shall not be considered on streets defined as Thru Streets.
 - b. There shall be no more than one (1) moving lane of traffic in each direction.
 - c. Traffic volumes shall be more than 300 vehicles (27 residents), but less than 2,500 vehicles (227 residents), for the two-way volume, per day.
 - d. Vehicle Speed shall exceed the Speed Criteria.
 - e. The street shall have a speed limit of 25 mph, or less, as determined in accordance with the "General Provisions for the Design and Construction of Public Roadways in Nelson County".
 - f. The street shall not be so close to a Fire Department facility as to significantly interfere with emergency vehicle operations.
 - g. If deemed necessary, the PW will also solicit comments from the appropriate Police Division, appropriate Fire District, EMS, Police Departments and appropriate service departments. If comments are not received within two (2) weeks, PW will assume there are no objections. Should they identify significant concerns which cannot be corrected, PW will not install speed humps.
 - h. Speed Humps shall not be considered on alleys.
4. Geometric Characteristics of the Street
 - a. The street should have adequate sight distances, as defined in the "General Provisions for the Design and Construction of Public Roadways in Nelson County" to safely accommodate the hump. Sight Distance shall be available based on the speed limit of the roadway
 - b. The street shall not have curves or grades that prevent safe placement of the humps. Therefore, Humps may be located on streets that contain curves and/or grades, but the hump itself should not be located within a significant horizontal curve, or a vertical grade greater than eight (8%) percent.
 - c. The street shall be paved. If there are no curbs, a special design of speed hump may be used to prevent vehicles from going around the speed hump.

D. COST RESPONSIBILITY/MAINTENANCE RESPONSIBILITY

1. The cost for the speed hump materials shall be the responsibility of the Applicant (residents/homeowners association) to purchase. This includes the cost of all speed hump material, warning signs, pavement markings, and, if necessary, special design features such as curbing. The type/style of speed hump ALLOWED to be used shall be coordinated with and approved by the PW.
2. The Cost the initial installation of the Speed hump shall be the responsibility of the PW. Only the PW (or a contractor hired by the PW) shall install the speed hump.
3. Roadways require routine maintenance (snow plow clearing, new pavement overlay, asphalt patching, etc). Should the Speed Hump be damaged during maintenance or need to be removed for such roadway maintenance, then the total cost for reinstallation (including labor costs and or new material costs) shall be the responsibility of the Homeowners association/residents. The homeowners association or residential representative will notified on the cost to repair/replace the speed hump. If the homeowner association or residential representative are unwilling to pay for the cost of the speed hump repair/maintenance, the speed hump will be removed by the PW.

E. SPEED HUMP REMOVAL AND ALTERATION

The process for speed hump removal or alteration by citizens is the same as the process for installation.

Applicants may be required to assume 100% of the cost for alterations or removal of speed humps that were installed under this policy.

Fiscal Court Orders

Sept. 16, 2014
REGULAR SESSION OF NELSON FISCAL COURT

Book 37
Page 395

F. SPEED HUMP LOCATION

Nelson County Public Works and Road Department (PW) will work with the property owners to the extent possible on the location of the Speed Hump. For engineering and/or safety reasons, the best location for a Speed Hump may be in front of a property where the property owner opposes it. PW will take those preferences into consideration, but PW will make the final decision on placement.

G. DESIGN STANDARDS AND PROCEDURES

PW will prepare and maintain current design standards and installation procedures for speed humps according to these guidelines. PW will provide minimum Speed Hump design standards allowed and types of speed humps available for purchase.

The design and installation of speed humps shall comply with the Institute of Transportation Engineers' Recommended Practice, Guidelines for the Design and Application of Speed Humps.

All signage and pavement markings shall comply with the current edition of the MUTCD and ITE's Recommended Practice, Guidelines for the Design and Application of Speed Humps.

H. PROCEDURES TO REQUEST SPEED HUMP INSTALLATION

1. The Applicant's initial request for the installation of speed humps shall originate from a representative of the property owners or homeowners association from a segment of the street or neighborhood group. The request should be provided on the attached form and forwarded to the following address:

Nelson County Road Department
Attn: County Engineer
820 West Stephen Foster
Bardstown, KY 40004

2. If the applicant does not represent a Homeowner's Association for the particular roadway or a Homeowner's Association does not exist for the roadway, then a representative of the area shall submit written petitions (with Names, Addresses, signatures) to PW showing that approximately 70% of the property owners on the street support the installation of speed humps, as provided in the speed hump policy. In gauging the level of support or opposition, PW will apply one (1) "vote" per residential household.
3. PW will make a preliminary determination of eligibility. PW will coordinate with the Nelson County Fiscal Court for their review and approval. PW if deemed necessary, will conduct the necessary transportation engineering studies, including, but not limited to: traffic volume, accident analysis, speed study, field review, etc. PW will solicit comments and recommendations of other agencies, including, but not limited to, emergency service and appropriate service departments. A determination of the street's eligibility for speed hump installation will be made in writing, in a timely manner, to the applicant's representative, based on the speed hump guidelines.
 - a. If the street is determined to be ineligible, the applicant's representative will be given written notification of that determination and its reasons.
 - b. If the street is determined to be eligible for consideration, PW will
 - define the petition area
 - define the proposed speed hump locations
 - determine the total cost

Fiscal Court Orders

Sept. 16, 2014
REGULAR SESSION OF NELSON FISCAL COURT

Book 37
Page 396

- c. Once a street is approved for speed hump installation, PW will submit a statement to the applicant's representative for the cost of the speed hump installation. The initial Cost to the applicant shall be the cost of the speed hump material.

Once Payment is received, the PW will order materials.

The PW shall be responsible to install the speed hump

Upon receipt of materials, the PW will install the speed humps as scheduling permits.

Recycled Rubber Speed Humps

For applications where a speed bump is not appropriate, or simply not allowed, our modular, recycled rubber Speed Humps are perfect because they are:

'Street Legal' for use on public roads and parking lots*

Durable because they are made of 100% recycled tires

Preformed - so they are uniform and consistent in shape and slope (unlike built-up asphalt)

Highly Visible - Reflective yellow stripes make them visible at night or in bad weather

Portable - can be easily moved for snow removal, paving or to simply change traffic flow

Modular - interlocking design expands to fit any road

Dimensions:

* Speed Hump Middle Sections are 2.1" Tall x 35.5" Across x 19.5" Wide

* Speed Hump End Caps (One Male and One Female End Cap are recommend for each location) are 2.1" Tall x 35.5" Across x 19.5" Wide

GREEN BENEFITS:

Each section of recycled rubber speed hump saves 3.6 tires from going into landfills!

* Consult your local ordinances before installing on any public roads.

Four mounting kits to choose from:

TYPICAL SPEED HUMP AVAILABLE FOR PURCHASE
TOTAL COST ~ \$1600/EACH X 20 LK (MATERIALS)

Product Details

Description

Rubber speed humps slow traffic to 15-20 mph and are ideal for parks, school zones, hospitals, and retirement communities. The modular units lock together, creating a uniform surface fit to the road's width. Also legal for authorized use on public roads. LEED approved - made from solid 100 recycled tires.

Reflective yellow stripes for high-visibility at night and in bad weather. Pre-drilled bolt holes for easy installation and removal. Comes with 4 mounting hardware options.

Meets Safety Standards ITE; FHWA

Fiscal Court Orders

Sept. 16, 2014
REGULAR SESSION OF NELSON FISCAL COURT

Book 37
Page 399

ON-GOING - Jim Lemieux presented his regular Road Department report, updating Court members on bushhog work, boom mowing (as staff permits), hot mix patching, work on the County Annex parking lot, and completion of the Hibbs Ln. bridge project, as well as installation of gambion baskets on Hagan Ln. and other routine work.

****LANDFILL/SOLID WASTE**

MECHANICS BUILDING - Brad Spalding gave Court members an update on construction progress on the landfill Mechanics Building, explaining the payment made on that project.

COMPACTOR - Spalding reported on garbage truck repair, telling Court members that one engine was rebuilt in-house, also noting cost of certain replacement parts. Hopper had to be rebuilt on one garbage truck. Canadian sellers are at landfill doing work agreed to before purchase of the used compactor is finalized.

EMPLOYEE - On motion of Jerry Hahn, second of Sam Hutchins, by unanimous vote of the Court, IT IS HEREBY ORDERED to approve raising Josh Lampkin to the same pay as other employees, this following his six-month trial employment and his having acquired his CDL.

Fiscal Court Orders

Sept. 16, 2014
REGULAR SESSION OF NELSON FISCAL COURT

Book 37
Page 400

ADMINISTRATOR'S REPORT - Joe Prewitt told Court members that 1) the 2000 Ford refurbished ambulance is scheduled to go to the paint shop next Monday; 2) six crews are scheduled for Bourbon Festival events on Friday and Saturday; and 3) he gave the following agency updates, noting that Dispatch Director Debbie Carter was named Kentucky's Director of the Year at the KESC Conference:

Dispatch update:

1) Received a \$180,000.00 grant from the CMRS,(Commercial Mobile Radio Service), Board to replace our CAD (Computer Aided Dispatch), system. We had request \$217,000.00, but can take out one position at EMS and make the grant work at that amount.

2) New 911 phone system equipment has been delivered and is scheduled for install mid-October. This replaces the 911 positron system that we have used since the mid 90's. This equipment was also purchased with a grant from the CMRS Board on a 5 County regional application.

3) Worked at the new tower site Saturday and Sunday installing seven antennas and coaxes and preparing the radio shelter for the radio equipment. We plan on install the electric today weather permitting. Then start moving the radio equipment from Caney Fork Tower later this week. The top antenna (New Haven, Rolling Fork, New Hope) is at 319 feet and the lowest Antenna, (Nelson County Emergency Management) is the lowest at 240 Feet. Salt River Electrics antenna is placed at 295 feet.

Emergency Management:

I attended the KESC, (Ky Emergency Services), Conference the first week of September and received 19 hours of classroom and scenario based training on the handling of "Mass Casualties and Mass Fatalities."

Explorers:

The 4 explorers for the Sheriff's Office and the Explorer for EMS have been delivered and we are awaiting the aftermarket equipment for installation.

****JAIL REPORT**

I, Stephen Campbell, Sheriff of Nelson County, hereby acknowledge receipt of 23,154 tax bills for the above amounts for 2014 state and local taxes from Elaine A. Filiatreau, Clerk of Nelson County.

Signed *Stephen Campbell*
Sheriff Stephen Campbell, Nelson County

Signed and acknowledged before me this 12 day of Sept, 2014

Clerk *Elaine Filiatreau* County

CLERK'S CERTIFICATION

I, Elaine A. Filiatreau, Clerk of Nelson County, do hereby certify that tax bills have been prepared for all property on the tax roll as finally certified by the revenue cabinet for the 2014 tax year. I further certify that the total amount of taxes due each taxing district represented by all bills prepared is as indicated above, and that this receipt is recorded in County Order Book 39, Page 384

Clerk *Elaine Filiatreau* County

VOTING PRECINCTS

Magistrates and media were given a list of precinct locations that were used in the past but are not now used; they were also given a list of new precinct locations. Media were asked to help communicate these changes to Nelson County voters; County Clerk asked that residents visit nelsoncountyclerk.com, following links under the Voter Registration tab to the Road List and then to the Precinct Location.

Fiscal Court Orders
